Part of Records Package / Supplement / Correction

Dear DOE:

I am an attorney practicing in Las Vegas, who resides in Henderson, Nevada. My wife is a high school teacher in Henderson, who also lives in Henderson. We are adamantly opposed to transporting nuclear waste in Nevada and storing it Yucca Mountain. Yucca Mountain is on a fault, and has a high potential for earthquakes, which will jeopardize the safety and health of residents of Nevada and its residents if nuclear waste is stored here. Furthermore, Nevada does not use nuclear power in any way, and must not become the waste dump for the country. Although we are mostly desert terrain, there are many beautiful aspects to Nevada, and those states which benefit from nuclear waste, and those which want it stored there, should be the chosen site for disposal. Nevada residents do not want the waste, do not benefit from it, and it must not be stored here. Thank you.

Sincerely,

Neal K. Hyman, Esq.  
Julie M. Hyman
